Fruit:	capsule
Zone:	5

DESCRIPTION

Oakleaf Hydrangea is a handsome native shrub that offers ornamental interest in every season!

Gatsby Moon™ is a showy, long blooming cultivar from Proven Winners®. Its double flowers are tightly packed, creating large, dense panicles that are weather resistant. As the panicles mature, the flowers age to a soft green shade, a unique color for Oakleaf Hydrangea! Its very large dark green leaves turn wine-red in the fall. During the winter months its exfoliating bark takes center stage.

Utilize this large shrub where there is ample space. Plant in borders, as a background plant, or as a single specimen.
