Fall Color:	yellow, orange, red
Flowers:	coppery-orange
Fruit:	capsule
Zone:	5

DESCRIPTION

The fragrant blooms of Copper Beauty appear in mid to late winter, and are one of the largest flowers of all the Witchhazel cultivars. When viewed from a distance, the shrub in flower has a glowing copper colored appearance and lights up the winter landscape.

Its showy foliage display in fall includes tones of yellow, orange and red, which are displayed on the shrub simultaneously.

Give this large spreading shrub room to mature. Utilize in borders, woodland gardens and as a single specimen. Site where views of its flowers can be enjoyed during winter.
